

# New Tech Institute's STEMFest

## February 22nd-23rd

March 1, 2018

Dear Area Business Leader,

We are so excited to reach out to you in partnership on behalf of the students and staff at New Tech Institute in regards to our third annual EVSC area STEM Fest to be held on Feb. 22nd & 23rd, 2019! Last year, we had approximately 500 people attend our free, educational STEM Fest. We anticipate at least doubling that number this year. As the next generation of high school students looks toward their future, your financial support of our area-wide event can help provide targeted funding for Evansville & the EVSC's only STEM & Entrepreneurial Project-Based-Learning High School. Please consider one of the following tax deductible support options for our event and our school programming:

**\$125 ~ Family & Small Business Event Sponsor** (Name featured on our event t-shirt)

**\$250 ~ Featured Event Sponsor** (Featured on a logo banner & name on event t-shirt)

**\$500 & Above ~ 2017/18 Corporate Title Partner & Event Sponsor** (Featured year round in our campus hallway as one of our Evansville Area STEM Support Organizations in addition to an event logo banner and t-shirt listing)

**STEM Fest Booth or Display Sponsor** ~ Does your company have a unique STEM project that you feel would engage our area students? We would love to partner with you to provide a free hands-on learning opportunity at our STEM Fest. There is no fee for you to setup a booth providing it is hands-on for the children.

***Sponsor contribution checks can be mailed payable to NTI&CO (memo: STEM Fest), 1901 Lynch Road, Evansville, 47711. Organizations may also pay online via Paypal or credit card to NTISTEMFest@gmail.com. Any applicable logo artwork should be sent to this email address as well. Please feel free to email or contact us with any questions or to request an invoice for your sponsorship level.***

You will find additional information about our school and our programs listed below. We are very fortunate and appreciative that Evansville can offer an educational opportunity of this nature to all students within the EVSC and surrounding school districts. Thank you in advance for partnering with us and continuing to open doors for our future community leaders!

Sincerely,

NTI&CO Executive Committee Officers and  
Mr. Christopher Gibson, Principal of New Tech Institute

The mission of the NTI STEM Fest is to focus on the unique attributes of New Tech Institute by providing the community with an event to share free, hands-on, STEM related activities with students of all ages. Our goal is to help build strong minds, strong students, and strong community throughout the Evansville area. This event will serve as the primary fundraiser for NTI&Co, the parent group of New Tech High School, and actively seeks to build strong, mutually beneficial relationships with area schools and community businesses.

**New Tech Institute's**

**STEMFest**

**February 22nd-23rd**

New Tech Institute was founded in 2010 and has grown to full capacity with a waiting list for admission. Additionally, they have established a standard of excellence within the national New Tech Network, winning the New Tech Network National Demonstration Site and Exemplary School award for the past three years. New Tech Institute is a nationwide learning model serving administrators in our geographic area who are interested in adding a New Tech to their school district. In 2016, NTI was certified as one of ten new STEM designated schools in the state of Indiana and we are the only STEM certified high school south of Bloomington.

NTI students have continued to excel in all areas, making a name for themselves in several academic and athletic competitions over recent years. NTI will help produce many future leaders and innovative citizens that will continue to serve their community for years to come and we are excited about the launch of our new Makerspace in January of 2019 that will help our students achieve these goals.

The tradition of excellence has continued as we enter our 9th year and the demand for a school such as New Tech has been great in the Evansville area. We believe we are creating 21st century leaders that will serve throughout our community; our work is being recognized as the graduating class of 2018 earned \$3.2 million in scholarship offers.

For more information on New Tech, visit the school website at: <http://newtech.evscschools.com/>

NTI&CO is a tax-exempt, 501(c)3, community organization aimed at partnering with NTI to benefit students, staff, and community. We collaborate with the educational system to provide the tools needed for continued success. We are in the process of gathering financial support for the 2018/19 academic year and would love to include you as one of our corporate sponsors. Your contribution or donation will allow our efforts to be multiplied and provide great exposure for your business in addition to being a tax-exempt gift that stays directly in our community and school.
